

AP-5000

Measure more with the AP-5000

With a range of standard parameters and 4 user configurable electrode ports, you get more choice and more parameters!

Standard Parameters:

Optical DO, Specific EC, Absolute EC, pH, ORP, TDS, Resistivity, Salinity SSG, Depth and Temperature.

The AP-5000 comes with 4 customisable electrode ports in addition to all the standard parameters

AP-5000 electrode sockets

AP-5000, fully loaded

ISE Electrodes:
Ammonium &
Ammonia,
Chloride,
Fluoride,
Nitrate,
Calcium.

Optical Electrodes:
Turbidity,
Chlorophyll,
Blue Green Algae,
Rhodamine,
Fluorescein,
Refined Oil.
