

Water Monitoring Packages

Packages contain everything you need to start monitoring.

All packages come with an Aquaprobe[®], 3m cable, GPS Aquameter[®], calibration solution, PC application and USB cable plus a host of other accessories.

Details

AP-700: pH • ORP • DO • EC • Temp

Supplied with 3m cable fitted to the probe with AquaConn metal connector for connection to the GPS meter. Package contains GPS Aquameter[®], calibration solution, spare DO membrane cap, DO filling solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter[®] lanyard, screwdriver, calibration / rinse bottle & a hard carry case.

AP-800: pH • ORP • DO • EC • Turbidity • Temp

Supplied with 3m cable fitted to the probe with AquaConn metal connector for connection to the GPS Aquameter[®]. Package contains GPS Aquameter[®], calibration solution, spare DO membrane cap, DO filling solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter[®] lanyard, screwdriver, calibration / rinse bottle & a hard carry case.

AP-2000: pH • ORP • Optical DO • EC • Temp + 1 ISE port and 1 Optical port

Package contains a 3m cable with AquaConn metal connectors at either end for connection to the Aquaprobe[®] and GPS Aquameter[®], GPS Aquameter[®], calibration solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter[®] lanyard, screwdriver, calibration / rinse bottle & a rugged carry case.

AP-2000-D: pH • ORP • Optical DO • EC • Depth • Temp + 1 ISE and 1 Optical port

Package contains a 3m cable with AquaConn metal connectors at either end for connection to the Aquaprobe[®] and GPS Aquameter[®], GPS Aquameter[®], calibration solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter[®] lanyard, screwdriver, calibration / rinse bottle & a rugged carry case.

AP-5000: pH • ORP • Optical DO • EC • Depth • Temp + 4 Auxiliary ports

Package contains a 3m cable with AquaConn metal connectors at either end for connection to the Aquaprobe[®] and GPS Aquameter[®], GPS Aquameter[®], calibration solution, pH storage solution, PC application, USB cable, 5xAA batteries, Aquameter[®] lanyard, screwdriver, calibration / rinse bottle & a rugged carry case.
